

City Fertility Centre - sale to Asia-based consortium

02 February 2018

1 min. read

HopgoodGanim Lawyers would like to congratulate our client City Fertility Centre on the sale of a 65 per cent stake of its business to CHA Healthcare and Singapore Medical Group.

Partner, [Luke Mountford](#), led the large HopgoodGanim team that advised City Fertility Centre on the deal.

Luke was supported by over 15 lawyers from across the firm's Brisbane office including members of our [Private Enterprise](#), [Employment Law](#) and [Intellectual Property](#) teams.

Luke says the signing of the deal on Wednesday is such a rewarding milestone for his client.

"We've enjoyed working with City Fertility Centre as their legal advisors over the past 10 years, helping the business to grow from one owned by a handful of doctors, to one that now has 18 shareholders who are actively involved in the business, as well as two major international healthcare partners."
