1 min. read

HopgoodGanim Lawyers would like to congratulate QEM Limited (ASX:QEM) (**QEM**) on entering into a binding agreement to sell the Julia Creek Renewables Project to Enel Green Power Australia (**EGPA**). EGPA is jointly owned by Enel Green Power and INPEX Renewable Energy Australia.

The Julia Creek Renewables Project is located in north-west Queensland. The proposed development is a hybrid wind and solar farm, adjacent to QEM's flagship Julia Creek vanadium and oil shale project. With a targeted generation of around one gigawatt of energy to power QEM's vanadium mining and processing operations, the project represents one of Queensland's largest proposed renewable energy projects.

HopgoodGanim Lawyers is proud to have supported its long-standing client QEM in reaching this milestone. The team was led by Partners [Damian Roe](#) and [James Plumb](#), supported by Partner [Michael Hansel](#), Special Counsels [Elizabeth Harvey](#), [Luke Dawson](#), and [Saxon Rose](#) and Senior Associate [Jacinta Cafe](#).

Congratulations to all involved.
