HopgoodGanim is pleased to have advised Silver Lake Resources on its successful merger with Doray Minerals Limited by Scheme of Arrangement, which was announced in November 2018.

The Scheme was approved by the Supreme Court of Western Australia on Thursday 28 March 2019, and implemented today 5 April, and results in Silver Lake becoming a multi-asset, mid-tier gold producer with two high-grade gold operations in the Goldfields region of Western Australia - the Mount Monger and Deflector projects.

HopgoodGanim is pleased to have advised Silver Lake Resources on this transaction, which at prevailing prices values the merged entity in excess of \$600 million.

Partner [Robyn Ferguson](#) advised on this matter.
