1 min. read

HopgoodGanim Lawyers is proud to have taken out the Industry Innovation Award – Practitioner – Major & Developer (>20 pax) category in PEXA's PropertyX Innovate Awards 2021.

This award is a recognition of the innovation, value and service our commercial property team has delivered for the industry.

Congratulations to our property team, particularly [Justin McNally](#) and [Don Battams](#).

Partner, Justin McNally said, "This award is recognition that we are willing to embrace technology to achieve better outcome for our clients."

"In collaboration with PEXA, we have set a new benchmark for electronic project settlements, and literally broken the Queensland record with 199 apartment sales recently settled in one day for Aria Property Group."

In 2018, HopgoodGanim Lawyers was the first Queensland-based law firm to adopt PEXA Projects to facilitate electronic development settlements.

HopgoodGanim Lawyers congratulates all finalists and winners of the awards on their achievements.
