As Australia's mining sector gathers at the annual Diggers & Dealers Mining Forum in Kalgoorlie today, HopgoodGanim is proud of the exceptional outcomes we have delivered for our resources clients since last year's conference.

Over the last 12 months we've seen positive sentiment return to the resources industry, particularly in gold and base metals, and have assisted a number of our clients in transformational acquisitions, listings and capital raisings, a sample of which is listed below.
